

## Enabling opportunities

to give your business the  
external support it needs

# What can Innovate London do for your business?

Innovate London delivers high quality and cost effective support to enable SMES to innovate, improve business performance and environmental management; with the ultimate aim of improving the bottom line.

Innovate London is a unique collaboration which enables businesses to access state of the art facilities and expertise of London's University knowledge base via three innovation incubators:

**Accelerator** - London Metropolitan University; **London Knowledge Innovation Centre** – Business Extra and London South Bank University; and **Thames Innovation Centre**.

Innovate London can help your company to:

- Develop innovative products, services and business processes;
- Undertake environmental audits and gain recognised accreditation in sustainable business practice;
- Take part in business networking and workshop events that can open up new supply chain and B2B opportunities.

# Partners

## European Regional Development Fund

The European Regional Development Fund (ERDF) helps to tackle regional disparities across Europe. The ERDF supports regional development through actions such as business innovation, support and regeneration. The European Programmes Management Unit (EPMU) at the London Development Agency (LDA) is responsible for the administration of the 2007 to 2013 ERDF programme.

## Accelerator

Accelerator is a specialist business incubator in Shoreditch, the heart of London's ICT and digital media hub. We specialise in business development programs for high value, innovative, growing businesses in information and communication technology, interactive media, e-learning and design. Accelerator is part of London Metropolitan University.

## London Knowledge Innovation Centre

A joint venture between Business Extra and London South Bank University, The London Knowledge Innovation Centre (LKIC) provides strategic support and business advice to hi-tech and knowledge-based companies from its purpose built Central London incubator. We help companies exploit cutting-edge innovation and build profitable and sustainable businesses to help build London's knowledge economy. LKIC supports virtual, satellite and physical incubation and has its own hatchery to help start-up micro businesses to progress to incubation.

## Thames Innovation Centre

The Thames Innovation Centre (TIC) is a 50,000 sq ft award-winning business and innovation centre at the heart of Veridion Park, London Borough of Bexley. The TIC is aimed at small to medium enterprises looking for a flexible, prestigious, low cost solution with space for growth.

# How do my business and I get involved?

If you are an SME located in London and want to improve your profitability and sustainability then you could benefit from Innovate London.
